THE IMPORTANCE OF USING THE RIGHT CAR WASH CHEMICALS

People use car washes to clean their cars flawlessly. By using the right cleaning chemicals, your equipment provides the best cleaning possible. For the success of your car wash, it is imperative that the equipment provides the results that your customers are looking for. At MTech, what we ARE interested in is clean up. Our car wash chemicals, from prewash to finishing, do everything they can to turn your car wash into a profitable business.

- 05 Pre wash
- 07 Shampoo and foams
- 09 Waxes
- 11 Hand carwash

WHAT TO BEGIN WITH? PRE-WASH

The first step in any effective car wash is to use a quality prewash. Detergent for car washes, used in various formulas for prewash, is designed to solve various types of common problems.

In addition to removing contaminants and other pollutants, prewash compositions are also designed to affect organic matter. Insects are a problem at different times of the year, as they create an unsightly mess on the outside of the vehicle.

Finally, rims develop their own unique build up over time. To deal with this problem, MTech offers a rim pre-wash that is formulated for treating rims effectively.

Name	Reference	Aroma	Color	Power	Foam	Dilution	Programm	Price EUR (VAT excl.)
Metal shine rim cleaner mint 20L	021901010162	Mint	● No colorant	***	*	(1:60)	Low pressure Pre wash	49 €

PERFECT FINISH: WAXES

Creating the ultimate shine that accompanies an excellent car wash, is due to the use of quality waxes. Together with the hot softened water, the wax gives the car an ideal protective coating and increases the efficiency of the wipers during rain or snow.

Our highly concentrated wax products with powerful hydrophobic effect are great for cold climates, where drying traditional wax products can be problematic. It contains innovative silicone components that create a resistant protective coat on the car body. Smooths the surface, creating a mirror-shine effect.

Pleasant aroma is a nice addition to experience.

PROFESSIONAL LINE: HAND CARWASH

There are a significant number of things to consider when providing quality car wash services to your clients. While the main car wash detergent is a key aspect, the smaller details should not be ignored. Our product line includes hand pre-wash products for rims, interior and exterior shampoos. We provide quality foam washes and internal cleaning agents for different types of fabrics and materials. Fragrances provide a fresh finish and give your clients a clean they can smell.

OPTIC

Glass cleaner. Does not leave stains and is safe for plastic, rubber and painted surfaces.

PRECAUTIONARY MEASURES: Use personal protective equipment when using the solution. Avoid contact with mucous membranes (such as eyes, mouth, nose, ears) and skin. In case of contact, rinse with plenty of water. Consult a doctor if necessary.

RECOMENDATIONS FOR USE: Apply the product on the contaminated surface with a spray gun (trigger), remove the liquid with a glass scraper. Wipe dry with a lint-free cloth or paper.

INTERIOR

Professional cleaner for fabric and carpet coatings. Active foam effectively removes stains, neutralizes odors and renews color.

PRECAUTIONARY MEASURES: Use personal protective equipment when using the solution. Avoid contact with mucous membranes (such as eyes, mouth, nose, ears) and skin. In case of contact, rinse with plenty of water. Consult a doctor if necessary.

RECOMENDATIONS FOR USE: Using a trigger or sponge, apply a solution of the product onto the working surface, lather with a sponge, or collect the spent foam with a washing vacuum cleaner (for absorbent surfaces) or a sponge or soft cloth (for non-absorbent surfaces). For heavily soiled surfaces, the exposure time of the working solution on the surface for 3-5 minutes can be used.

Name	Reference	Color	Power	Dry	Dilution	Programm	Price EUR (VAT excl.)
Optic 20L	021901010161	○ No colorant	***	***	Ready for use	Glass cleaner	20 €

Name	Reference	Color	Power	Shine & protection	Dilution	Programm	Price EUR (VAT excl.)
Interior 10L	021902010154	○ No colorant	**	***	(1:10)	Textile cleaner	14 €
Interior 20L	021901010166	○ No colorant	**	***	(1:10)	Textile cleaner	26 €

SHADOW BLACK TIRE COAT

Professional super-resistant silicone-based product for blackening rubber and plastic surfaces. Gives the surface a bright updated look, prevents dust accumulation.

PRECAUTIONARY MEASURES: Use personal protective equipment when using the solution. Avoid contact with mucous membranes (such as eyes, mouth, nose, ears) and skin. In case of contact, rinse with water and boric acid solution, 1%. Consult a doctor if necessary.

RECOMENDATIONS FOR USE: Remove loose dirt. Apply the solution with a sponge or trigger and spread it evenly over the surface. Repeat processing if necessary. Before using on a plastic surface, check the effect on a small inconspicuous area.

WAX DEFENDER CHERRY

Wax with powerful hydrophobic effect. Contains innovative silicone components that create a resistant protective coat on the car body.

PRECAUTIONARY MEASURES: keep away from insertion on skin coverings and mucous membranes. In case of insertion, wash with water and 1% boric acid solution. Do not use on hot-tempered body! Hold on processed surface no more than 2 minutes.

RECOMENDATIONS FOR USE: Apply the working solution to a clean, wet car using a spray bottle or foam kit. 3-5 min after applying, pour water over without using high pressure.

Wax defender cherry 20L	021902010171	Cherry	<input type="radio"/> Pink	***	***	(1:100)	Wax	27 €

WHEEL

Effective detergent for cleaning the wheels removes all heavy dirt, dust from brake pads, rust.

PRECAUTIONARY MEASURES: Use personal protective equipment when using the solution. Avoid contact with mucous membranes (such as eyes, mouth, nose, ears) and skin. In case of contact, rinse with water and boric acid solution, 1%. Consult a doctor if necessary.

RECOMENDATIONS FOR USE: Prepare a working solution. When used separately: Apply with a sprayer onto the work surface. Leave on for 1-2 minutes and rinse with plenty of water. In case of a comprehensive car wash: apply a spray agent to the discs before applying active foam on the body. Leave for impact, apply active foam. Wash off both products. In this way the washing effect will be enhanced.

TORPEDO

Professional agent for cleaning and polishing plastic and lacquered parts with a silicone-based restorative effect.

PRECAUTIONARY MEASURES: Use personal protective equipment when using the solution. Avoid contact with mucous membranes (such as eyes, mouth, nose, ears) and skin. In case of contact, rinse with plenty of water. Consult a doctor if necessary.

RECOMENDATIONS FOR USE: Apply a small amount of the product to the surface with a cloth or trigger. Spread with a soft cloth.

REGENIT®

Vacuum salt tablets for water softening

Field of application

Water softening via ion exchange is the best way to obtain soft water. Regenit® vacuum salt tablets satisfy the process and system requirements necessary for water softeners based on ion exchanger resins and also offer superlative product characteristics. The result is efficient, problem-free water softening with all the advantages, including less limescale build-up and a longer service life for installations and equipment.

- High purity
- Even and residue-free dissolving Ideal tablet shape
- For home and commercial use

Shelf life: 18 months. Liquid solution remains safe and can be used for its intended purpose after the expiration date. It must be stored in a well-closed original container at - 5°C to + 35 °C. Avoid storage in wet and damp areas, at high temperatures, and in direct sunlight. Liquid solution freezes. After defrosting and thoroughly mixing the solution, it restores its original properties. Use personal protective equipment when using the solution. Avoid contact with mucous membranes (such as eyes, mouth, nose, ears) and skin. In case of contact, rinse with plenty of water. Consult a doctor if necessary.
